John,

I understand that Stephanie Vaughn mentioned to you last night that we have just received the Cooperating Parties Group's 90 percent design report for the Passaic River RM 10.9 removal, submission of the document having been delayed by the recent hurricane. The CPG is preparing a CD with the full report -- text, plus all the appendices -- which they will send to you next week. Once you've got the document in hand, as you previously offered could you assist in scheduling a meeting, with the Township as well as the CPG in early January?

We look forward to meeting with the Township of Lyndhurst.
